RE: DEIR (Draft Environmental Impact Report) for PEX Tubing

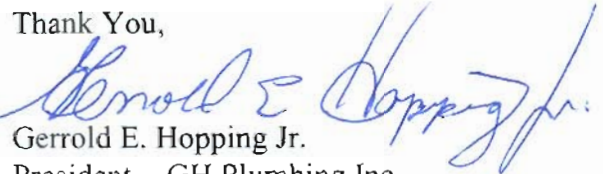

Dear Valerie,

Our company has been in business for 14 years. We employ approximately 15 employees in California.

We agree with and support the comments expressed in the letter from CALPASC to you dated June 17<sup>th</sup>, 2008.

We have been exclusively installing Pex water piping in our new homes for 8 years and have realized the benefits of this type piping. We also believe our customers have benefited from a pure piping system which is free from leaching minerals as in lead, copper, & zinc.

Thank You,

Gerrold E. Hopping Jr.
